Purpose and Methodology

ETC Institute administered a second community survey for the Community Alliance of St. Joseph, during May and June of 2012. The first survey was administered at approximately the same time in 2010. The survey was administered as part of an effort to assess citizen satisfaction with the quality of services provided by the City and County, and to gauge resident perception on many community issues, such as the livability of the community, health, education, and economic development in St. Joseph and Buchanan County. The information gathered from the second survey is compared in this report to the first (base-line) survey results. A review of any changes will help community leaders review budget priorities and refine policy decisions.

Resident Survey. A seven-page survey was mailed to a random sample of 1,800 households in the City of St. Joseph and surrounding Buchanan County. Approximately seven days after the surveys were mailed, residents who received the survey were contacted by phone. Those who indicated that they had <u>not</u> returned the survey were given the option of completing it by phone. Of the households that received a survey, 717 completed the survey by mail and 16 completed it by phone for a total of <u>733 completed surveys</u> (41% response rate). The results for the random sample of 733 households have a 95% level of confidence with a precision of at least +/- 3.7%. There were no statistically significant differences in the results of the survey based on the method of administration (phone vs.

mail). In order to better understand how well services are being delivered to the community, ETC Institute geocoded the home address of respondents to the survey. The map to the right shows the physical distribution of survey respondents based on the location of their home.

The percentage of "don't know" responses has been excluded from many of the graphs shown in this report to facilitate valid comparisons of the results from St. Joseph and Buchanan County with

the results from other communities in the national and <code>DirectionFinder</code>® databases. Since the number of "don't know" responses often reflects the utilization and awareness of city services, the percentage of "don't know" responses has been provided in the tabular data section of this report. When the "don't know" responses have been excluded, the text of this report will indicate that the responses have been excluded with the phrase "who had an opinion."

This report contains:

- > a summary of the methodology for administering the survey and major findings
- > GIS maps that show the results of selected questions as maps of the community
- benchmarking data that shows how the results compare to other communities
- importance-satisfaction analysis
- > cross-tabular data
- tables that show the results for each question on the survey
- > a copy of the survey instrument.

Major Findings

- ➤ <u>Perceptions of the City</u> Most (70%) of the residents surveyed who had an opinion indicated that they were satisfied with St. Joseph and Buchanan County as a place to live; 69% were satisfied with the community as a place to raise children, and 63% were satisfied with the feeling of safety in the City of St. Joseph.
- ➤ Most of the residents surveyed were satisfied with City services. Seventy-six percent (76%) of the residents surveyed who had an opinion were satisfied (rating of 4 or 5 on a 5-point scale) with the quality of police and fire services, 71% were satisfied with the City's parks and recreation programs and facilities, 59% were satisfied with the maintenance of buildings and facilities, and 52% were satisfied with the flow of traffic and congestion management.
- Services that residents thought should receive the most increase in emphasis over the next two years. The areas that residents thought should receive the most increase in emphasis from the City of St. Joseph over the next two years were: (1) maintenance of City streets, and (2) the quality of police and fire services.
- ▶ <u>Public Safety.</u> Eighty-five percent (85%) of the residents surveyed who had an opinion were satisfied (rating of 4 or 5 on a 5-point scale) with the quality of St. Joseph's fire protection, and 68% were satisfied with the quality of St. Joseph's environmental health inspections. Residents thought the public safety services that should receive the most additional emphasis over the next two years were the City's efforts to prevent crime, and the visibility of police in neighborhoods.
- Feeling of Safety in the City. Most residents (92%) surveyed who had an opinion felt safe in shopping areas in general, 90% felt safe at work, and 87% felt safe in their neighborhoods in general.

- ➤ Parks and Recreation. Eighty-four percent (84%) of the residents who had an opinion were satisfied (rating of 4 or 5 on a 5-point scale) with the number of parkway walking and biking trails, 79% were satisfied with the number of City parks, 69% were satisfied with the maintenance of City parks, and 68% were satisfied with the quality of outdoor athletic fields. Residents thought the two areas of parks and recreation that should receive the most additional emphasis over the next two years were the maintenance of City parks and the Riverfront recreational development.
- ➤ <u>City Maintenance/Public Works.</u> The areas of maintenance that were rated best by residents included; maintenance of City buildings (69%), snow removal on major City streets (66%), and maintenance of street signs and traffic signals (61%). Residents were least satisfied with the maintenance and preservation of downtown (30%).
- Codes and Ordinances. Forty-one percent (41%) of the residents surveyed who had an opinion were satisfied (rating of 4 or 5 on a 5-point scale) with enforcing of sign regulations, 39% were satisfied with the enforcing of business property maintenance, and 33% were satisfied with the enforcing of the mowing and trimming of lawns.

LIVABILITY

- Residents were asked about various issues that influenced their choice of where to live, and safety and security was the number one issue, followed by the quality of health care.
- A question was asked specifically about County services and County law enforcement was ranked highest at 59% satisfaction, followed by County fire protection at 54%.
- Resident sources of information about activities and services in the community are primarily the St. Joseph News-Press (print edition), followed by KQTV (Channel 2).
- Residents felt that arts and culture should have an important role in the development of St. Joseph (80%).

HEALTH AND WELLNESS

- Residents were given several health improvement issues and asked to rank them in order of
 their importance to their household, and then in the order of their willingness to personally
 address the issues. Residents selected access to affordable healthcare and physical activity
 increase as the most important, and physical activity increase and access to affordable health
 care as the issues that they were most willing to address.
- Several volunteer opportunities were listed and residents were asked about their participation; 43% volunteered at Church, 37% volunteered at a not-for-profit organization, and 33% volunteered at a school.

• Residents were asked about their satisfaction with the community's response to various issues related to poverty; residents felt the greatest concern (dissatisfaction) was with hunger as a result of poverty and health care as a result of poverty.

EDUCATION

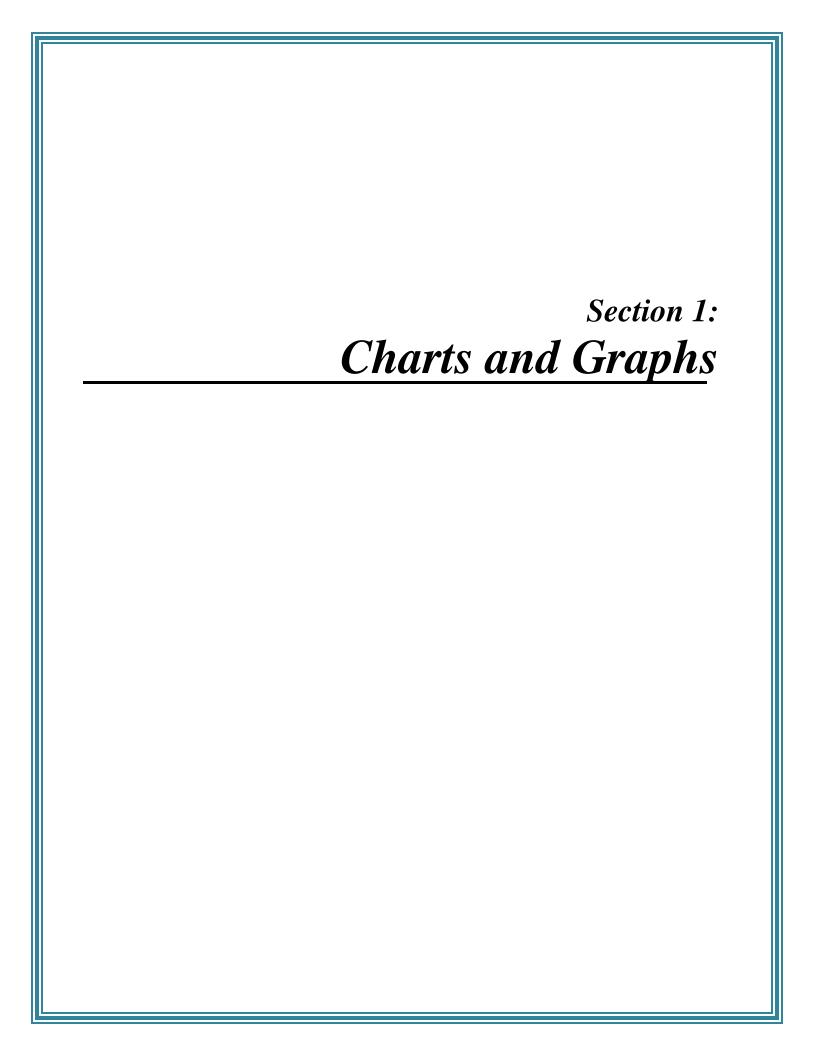

- 84% of those surveyed felt that the pre-school experience increased a child's chance of doing well in school.
- Those surveyed were asked to grade the public schools in St. Joseph; 11% gave an "A" grade, 40% gave a "B" grade, 35% gave a "C" grade, 11% gave a "D" grade, and 3% gave an "F" grade.
- Residents were asked to rate several issues regarding the School District in St. Joseph; the areas rated highest, with a combination of "excellent" and "good" responses, were the updating of computers and technology (74%), providing of athletics/physical education (69%), and the providing of safe and secure school buildings (64%).

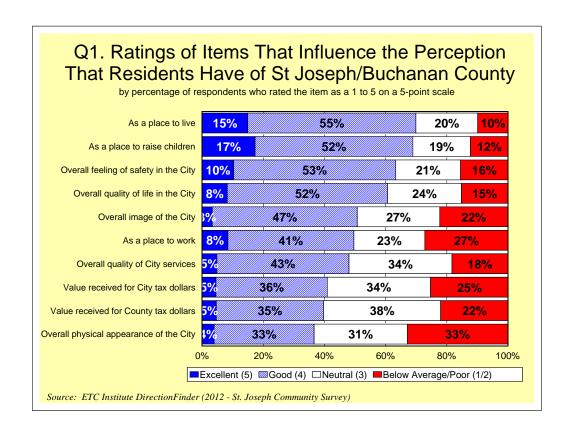

ECONOMIC DEVELOPMENT/QUALITY JOBS

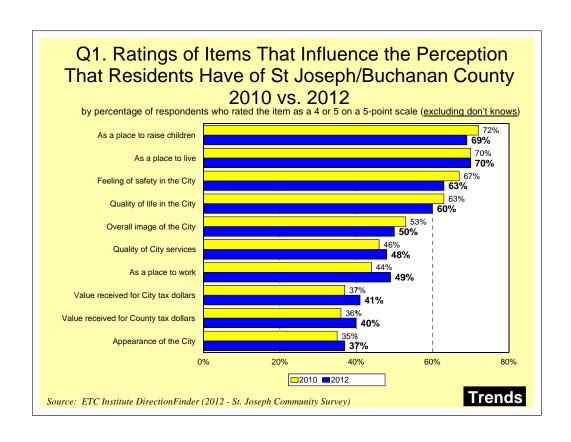

- Issues most important to residents in their definition of a "quality job", other than salary, were the benefit package, especially health care (60%), and how much they liked the job (37%).
- When asked if they felt they had adequate opportunities to pursue a better paying job in St. Joseph, 20% responded with "yes"; 57% said "no", and 23% did not know.
- When asked if they were willing to continue their education to pursue a better job, 63% said they were.
- Residents were very supportive of the preservation of historical properties, with 88% being either very or somewhat supportive.

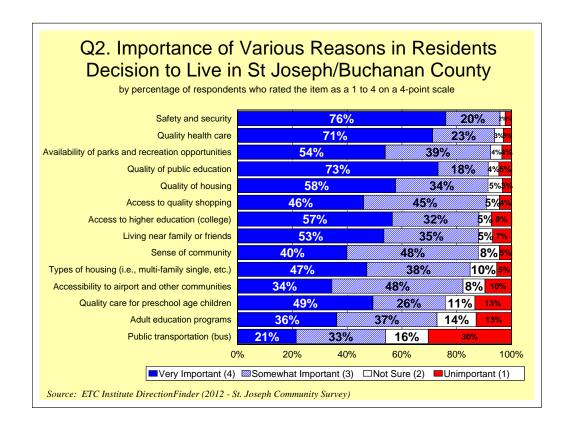

Other Findings.

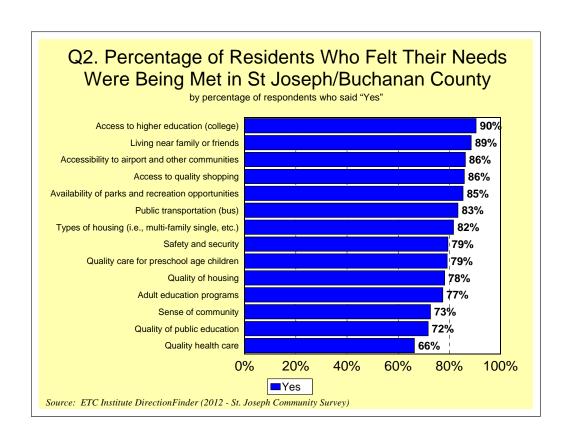

- Residents were asked if online courses at Missouri Western would benefit themselves or someone they know, and 37% answered "Likely".
- ➤ 64% of those surveyed would recommend living in St. Joseph to their family and friends.

DirectionFinder® Survey Year 2012 Benchmarking Summary Report

Overview

ETC Institute's *DirectionFinder*® program was originally developed in 1999 to help community leaders in Kansas and Missouri use statistically valid community survey data as a tool for making better decisions.

Since November 1999, the survey has been administered in more than 210 cities and counties in 43 states. This report contains benchmarking data from three sources: (1) a national survey that was administered by ETC Institute during the Summer of 2011 to a random sample of 3,926 residents in the continental United States, (2) a regional survey administered to 456 residents in Kansas and Missouri during the Summer of 2011 and (3) surveys that have been administered by ETC Institute in 24 communities in Kansas and Missouri between January 2009 and June 2012. Some of the Kansas and Missouri communities represented in this report include:

- Blue Springs, Missouri
- Clayton, Missouri
- Columbia, Missouri
- Garden City, Missouri
- Gardner, Kansas
- Grain Valley, Missouri
- Harrisonville, Missouri
- Independence, Missouri
- Johnson County, Kansas
- Kansas City, Missouri
- Lawrence, Kansas
- Lenexa, Kansas
- Merriam, Kansas

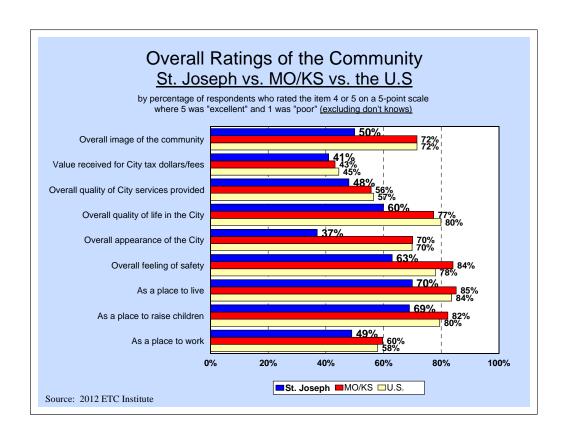

- Mission, Kansas
- North Kansas City, Missouri
- Olathe, Kansas
- Overland Park, Kansas
- Parkville, Missouri
- Platte City, Missouri
- Raymore, Missouri
- Riverside, Missouri
- Saint Joseph, Missouri
- Springfield, Missouri
- Wentzville, Missouri

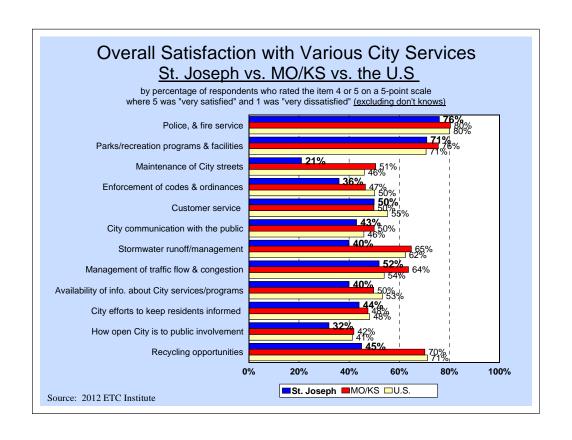

National/Regional Benchmarks. The first set of charts on the following pages show how the overall results for St. Joseph compare to the national average and regional Kansas/Missouri average based on the results of a 2011 survey that was administered by ETC Institute to a random sample of 3,926 U.S. residents.

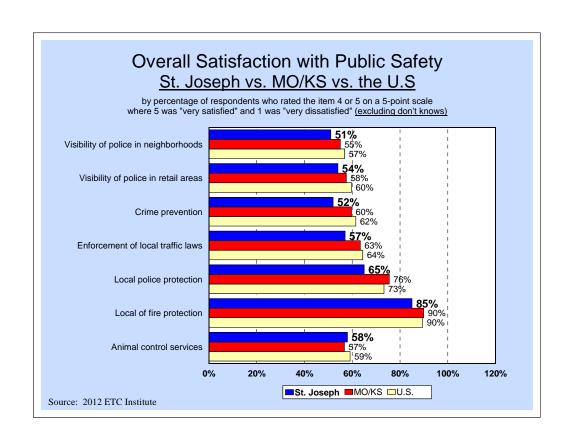

Kansas City Metro Benchmarks. The second set of charts show the highest, lowest, and average (mean) levels of satisfaction in the 24 communities listed above for more than 50 areas of service delivery. The mean rating is shown as a vertical line, which indicates the average level of satisfaction for communities in Kansas and Missouri. The actual ratings for St. Joseph are listed to the right of each chart. The dot on each bar shows how the results for St. Joseph compare to other communities in Kansas and Missouri where the DirectionFinder® survey has been administered.

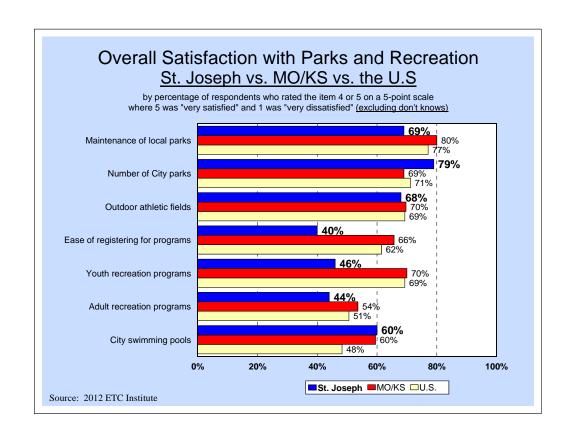

National Benchmarks

Section 3: Importance-Satisfaction Analysis

Importance-Satisfaction Analysis The City of St. Joseph, Missouri

Overview

Today, community officials have limited resources which need to be targeted to activities that are of the most benefit to their citizens. Two of the most important criteria for decision making are (1) to target resources toward services of the <u>highest importance to citizens</u>; and (2) to target resources toward those services where <u>citizens</u> are the least satisfied.

The Importance-Satisfaction (IS) rating is a unique tool that allows public officials to better understand both of these highly important decision making criteria for each of the services they are providing. The Importance-Satisfaction rating is based on the concept that cities will maximize overall citizen satisfaction by emphasizing improvements in those service categories where the level of satisfaction is relatively low and the perceived importance of the service is relatively high.

Methodology

The rating is calculated by summing the percentage of responses for items selected as the first, second, and third most important services for the City to emphasize over the next two years. This sum is then multiplied by 1 minus the percentage of respondents that indicated they were positively satisfied with the City's performance in the related area (the sum of the ratings of 4 and 5 on a 5-point scale excluding "don't know" responses). "Don't know" responses are excluded from the calculation to ensure that the satisfaction ratings among service categories are comparable. [IS=Importance x (1-Satisfaction)].

Example of the Calculation. Respondents were asked to identify the major categories of City services they thought should receive the most emphasis over the next two years. Forty-one percent (41%) ranked "Police and fire services" as one of the most important service to emphasize over the next two years.

With regard to satisfaction, "Police and fire services" was ranked first overall with 76% rating "Police and fire services" as a "4" or a "5" on a 5-point scale excluding "Don't know" responses. The I-S rating for "Police and fire services" was calculated by multiplying the sum of the most important percentages by 1 minus the sum of the satisfaction percentages. In this example, 41% was multiplied by 24% (1-0.76). This calculation yielded an I-S rating of **0.0984**, which was ranked fifth out of fourteen major service categories.

The maximum rating is 1.00 and would be achieved when 100% of the respondents select an item as one of their top three choices to emphasize over the next two years and 0% indicate that they are positively satisfied with the delivery of the service.

The lowest rating is 0.00 and could be achieved under either one of the following two situations:

- if 100% of the respondents were positively satisfied with the delivery of the service
- if none (0%) of the respondents selected the service as one of the three most important areas for the City to emphasize over the next two years.

Interpreting the Ratings

Ratings that are greater than or equal to 0.20 identify areas that should receive significantly more emphasis over the next two years. Ratings from .10 to .20 identify service areas that should receive increased emphasis. Ratings less than .10 should continue to receive the current level of emphasis.

- Definitely Increase Emphasis (IS>=0.20)
- Increase Current Emphasis (0.10<=IS<0.20)
- Maintain Current Emphasis (IS<0.10)

The results for the City of St. Joseph are provided on the following page.

Importance-Satisfaction Rating St. Joseph, MO OVERALL

Category of Service	Most Important %	Most Important Rank	Satisfaction %	Satisfaction Rank	Importance- Satisfaction Rating	I-S Rating Rank
Very High Priority (IS >.20)						
Maintenance of City streets	66%	1	21%	14	0.5214	1
High Priority (IS 0.10 -0.20)						
Recycling opportunities	21%	4	45%	7	0.1155	2
Enforcement of City codes/ordinances	18%	6	36%	12	0.1152	3
City water & sewer utilities	23%	3	50%	6	0.1150	4
Medium Priority (IS <.10)						
Police & fire services	41%	2	76%	1	0.0984	5
How open City is to public input from residents	13%	8	32%	13	0.0884	6
Flow of traffic & congestion management	17%	7	52%	4	0.0816	7
City's stormwater runoff/stormwater management	13%	9	40%	11	0.0780	8
Effectiveness of City communication with public	11%	10	43%	9	0.0627	9
City efforts to keep you informed about local issues	11%	11	44%	8	0.0616	10
Parks & recreation programs & facilities	18%	5	71%	2	0.0522	11
Information about City programs & services	7%	14	40%	10	0.0420	12
Customer service from City employees	8%	12	50%	5	0.0400	13
Maintenance of buildings & facilities	8%	13	59%	3	0.0328	14

Note: The I-S Rating is calculated by multiplying the "Most Important" % by (1-'Satisfaction' %)

Most Important %:

The "Most Important" percentage represents the sum of the first, second and third most important responses for each item. Respondents were asked to identify the items they thought should receive the most emphasis over the next two years.

Satisfaction %:

The "Satisfaction" percentage represents the sum of the ratings "4" and "5" excluding 'don't knows.' Respondents ranked their level of satisfaction with the each of the items on a scale of 1 to 5 with "5" being very satisfied and "1" being very dissatisfied.

Respondents ranked their level of satisfaction with the each of the items on a scale

of 1 to 5 with "5" being very satisfied and "1" being very dissatisfied.

Importance-Satisfaction Matrix Analysis

The Importance-Satisfaction rating is based on the concept that public agencies will maximize overall customer satisfaction by emphasizing improvements in those areas where the level of satisfaction is relatively low and the perceived importance of the service is relatively high. ETC Institute developed an Importance-Satisfaction Matrix to display the perceived importance of major services that were assessed on the survey against the perceived quality of service delivery. The two axes on the matrix represent Satisfaction (vertical) and relative Importance (horizontal).

The I-S (Importance-Satisfaction) matrix should be interpreted as follows.

- Continued Emphasis (above average importance and above average satisfaction). This area shows where the City is meeting customer expectations. Items in this area have a significant impact on the customer's overall level of satisfaction. The City should maintain (or slightly increase) emphasis on items in this area.
- Exceeding Expectations (below average importance and above average satisfaction). This area shows where the City is performing significantly better than customers expect the City to perform. Items in this area do not significantly affect the overall level of satisfaction that residents have with City services. The City should maintain (or slightly decrease) emphasis on items in this area.
- Opportunities for Improvement (above average importance and below average satisfaction). This area shows where the City is not performing as well as residents expect the City to perform. This area has a significant impact on customer satisfaction, and the City should DEFINITELY increase emphasis on items in this area.
- Less Important (below average importance and below average satisfaction). This area shows where the City is not performing well relative to the City's performance in other areas; however, this area is generally considered to be less important to residents. This area does not significantly affect overall satisfaction with City services because the items are less important to residents. The agency should maintain current levels of emphasis on items in this area.

Matrices showing the results for the City of St. Joseph are provided on the following pages.

Interpreting the Maps

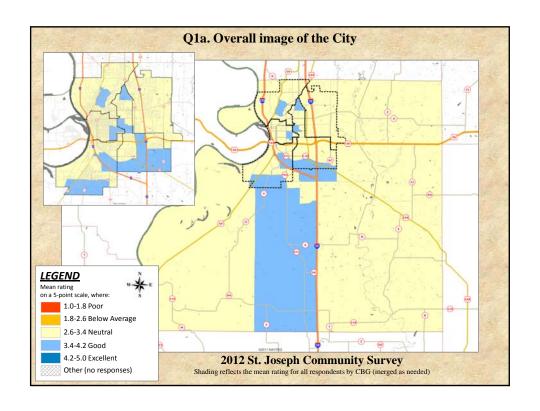

The maps on the following pages show the mean ratings for several questions on the survey by Census Block Group. A Census Block Group is an area defined by the U.S. Census Bureau, which is generally smaller than a zip code but larger than a neighborhood.

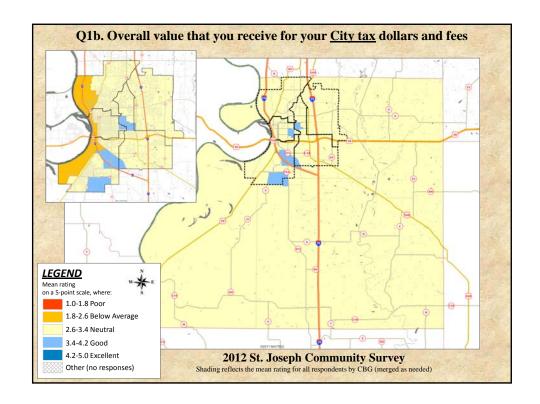

If all areas on a map are the same color, then residents generally feel the same about that issue regardless of the location of their home.

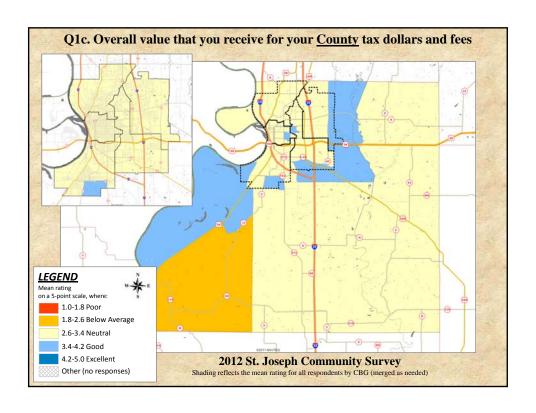

When reading the maps, please use the following color scheme as a guide:

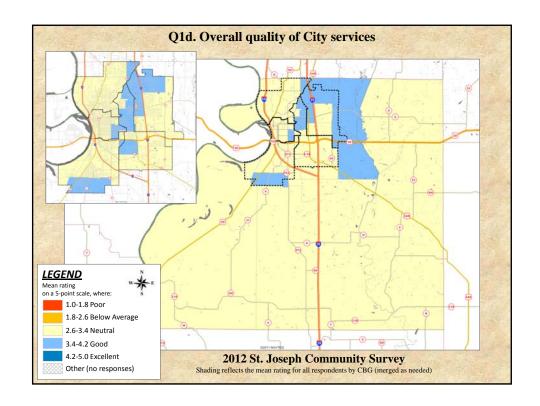

- DARK/LIGHT BLUE shades indicate <u>POSITIVE</u> ratings. Shades of blue generally indicate satisfaction with a service.
- OFF-WHITE shades indicate <u>NEUTRAL</u> ratings. Shades of neutral generally indicate that residents thought the quality of service delivery is adequate.
- ORANGE/RED shades indicate <u>NEGATIVE</u> ratings. Shades of orange/red generally indicate dissatisfaction with a service.

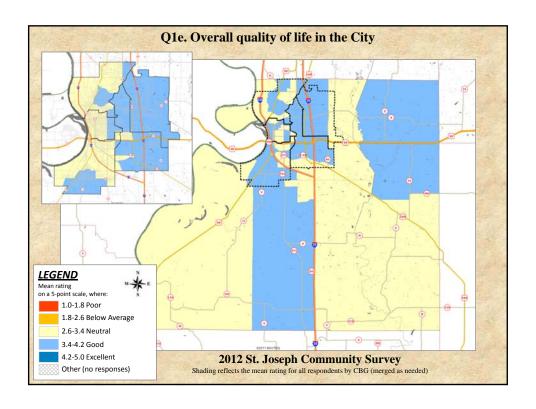

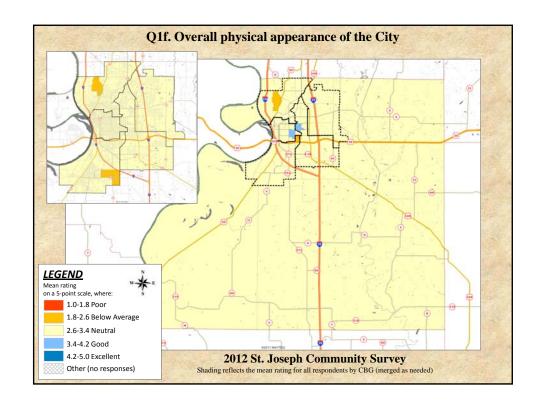

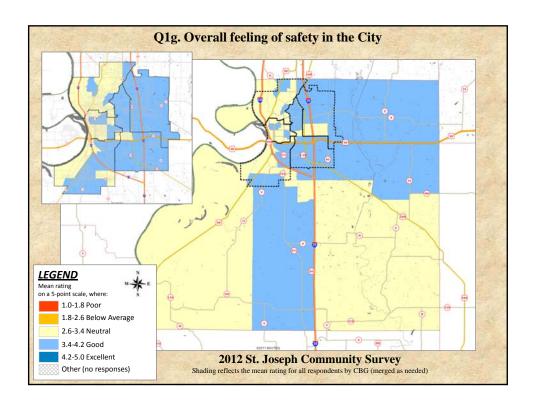

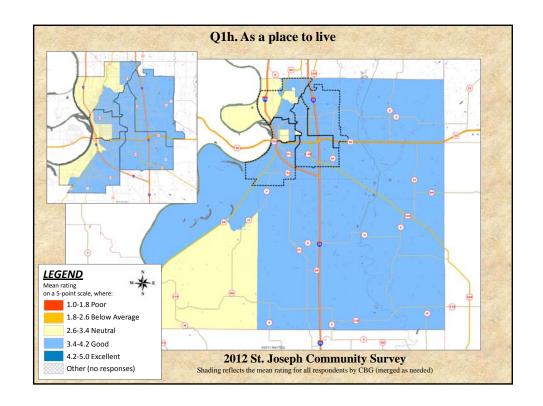

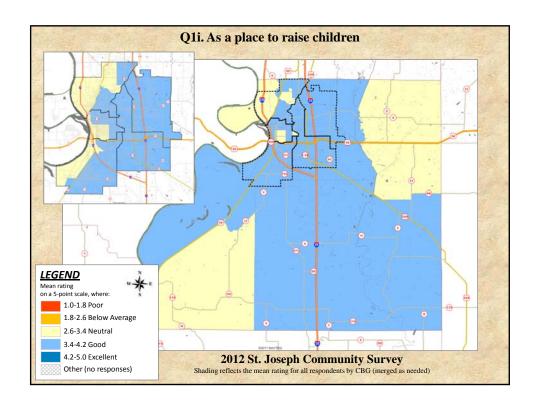

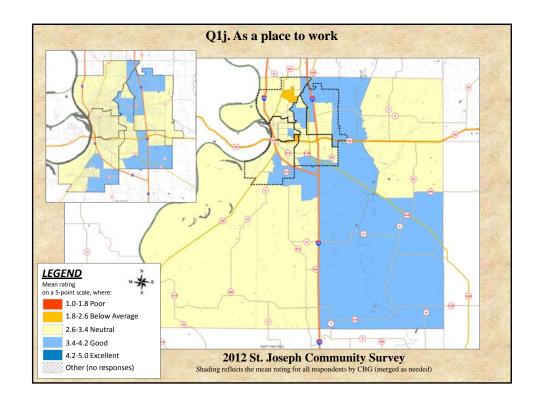

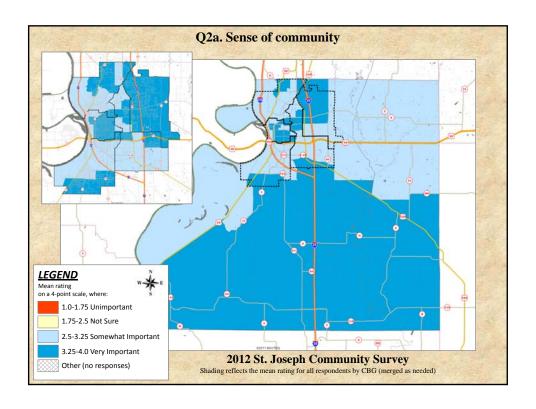

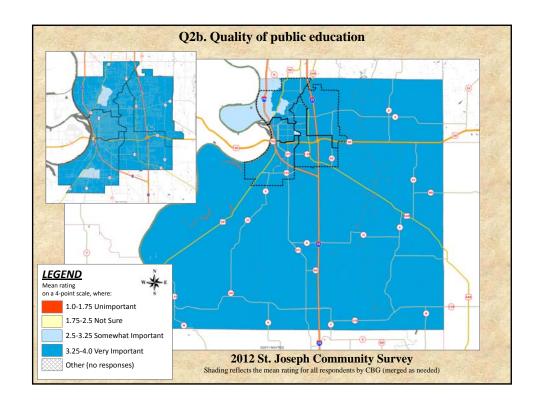

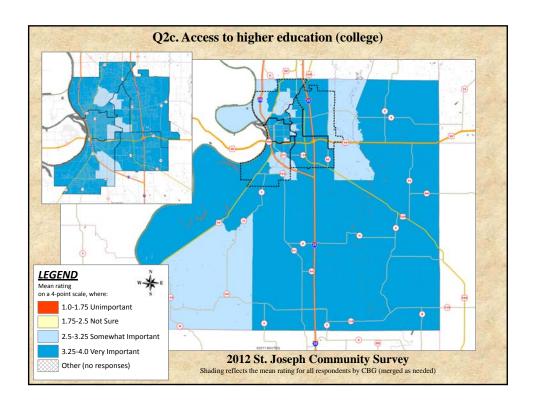

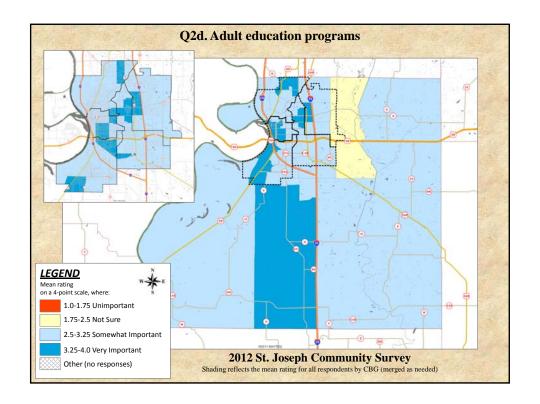

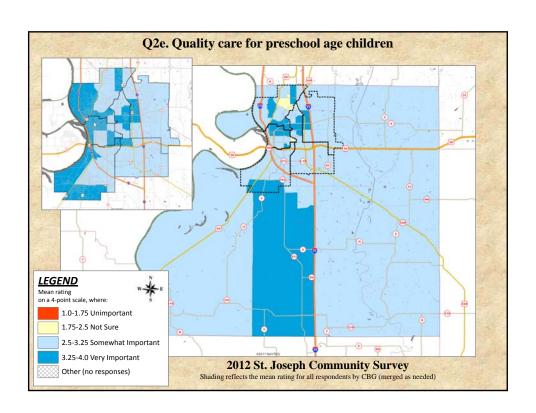

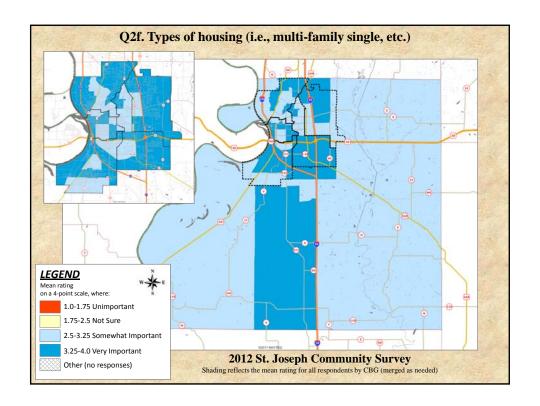

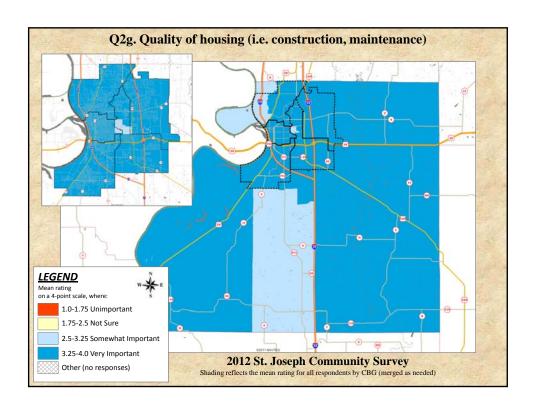

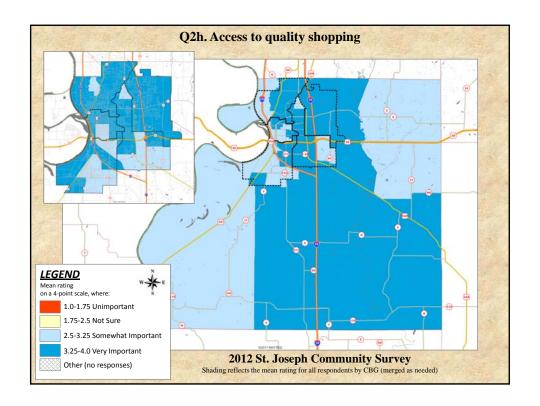

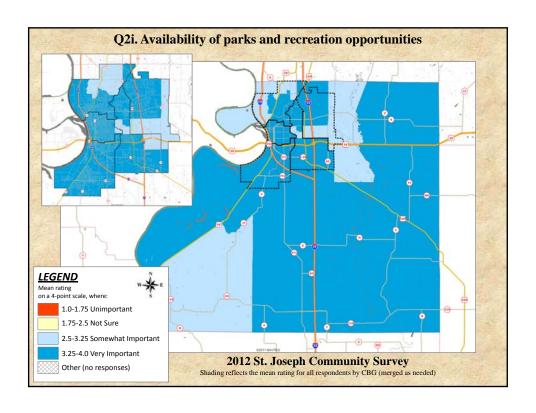

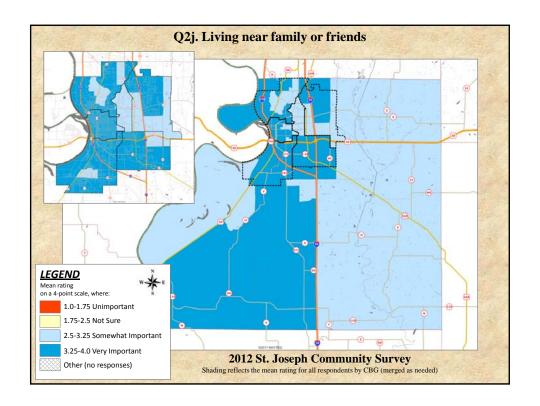

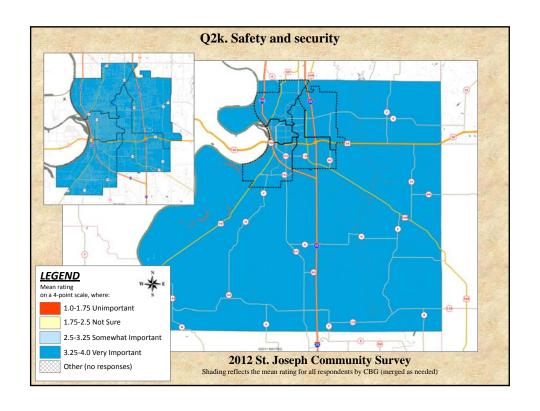

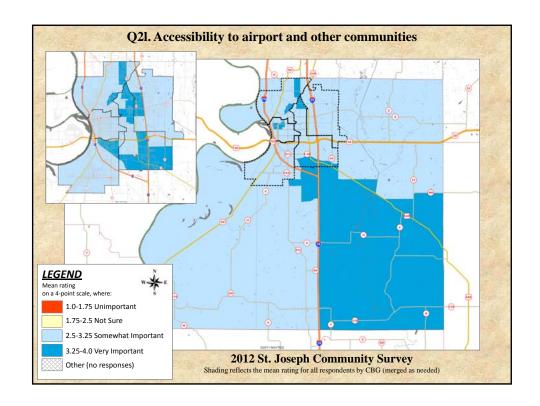

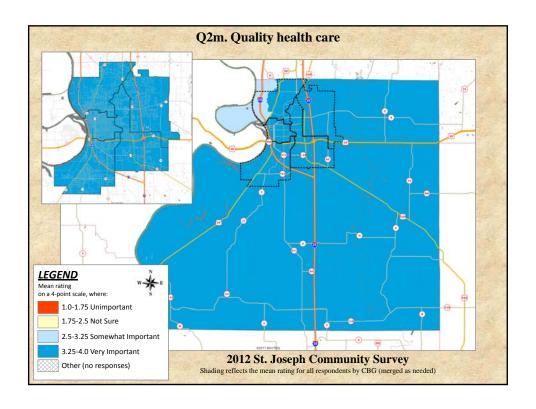

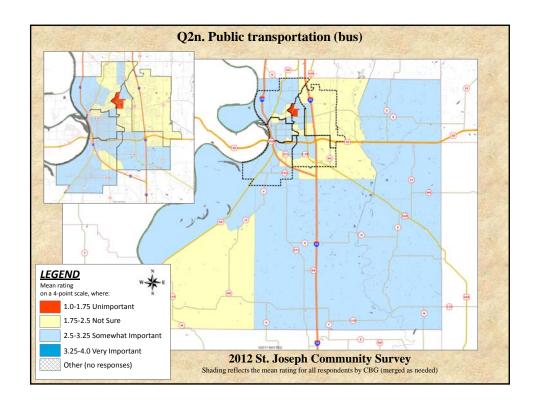

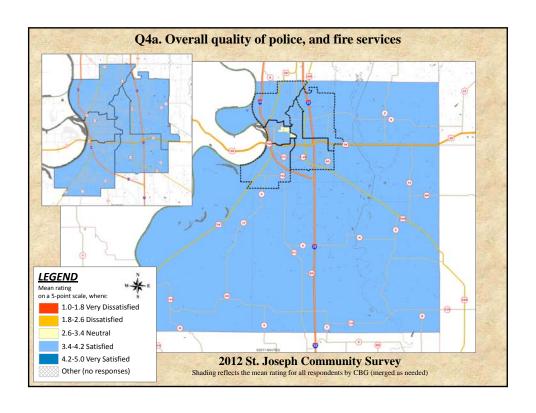

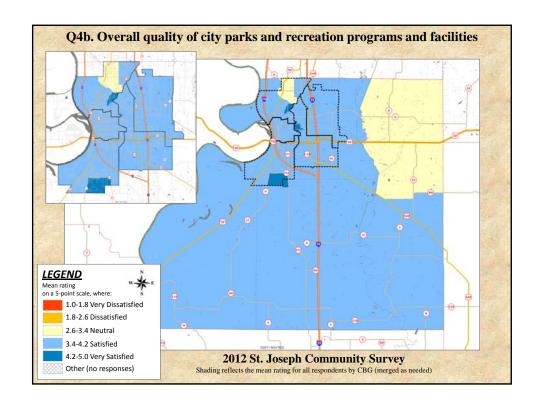

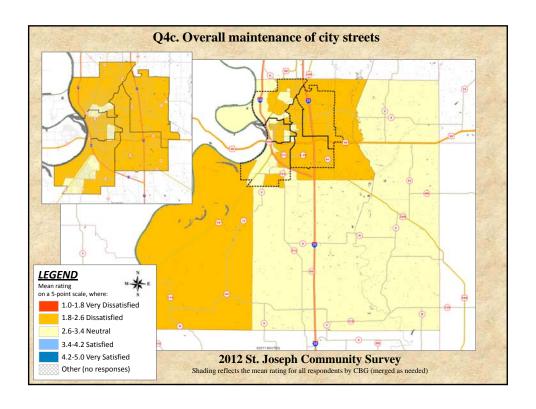

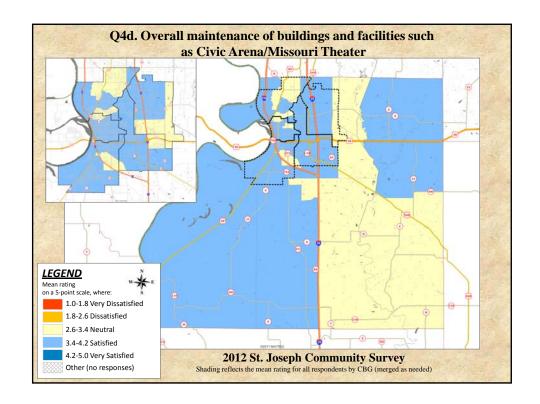

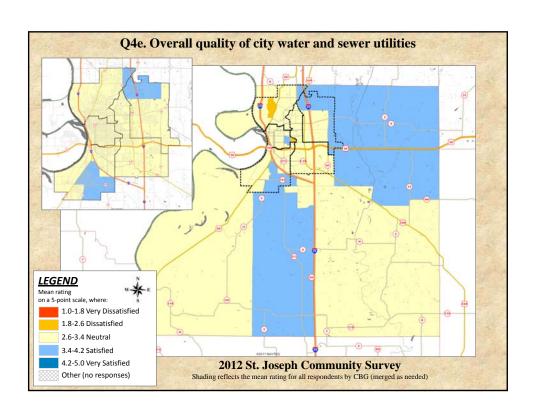

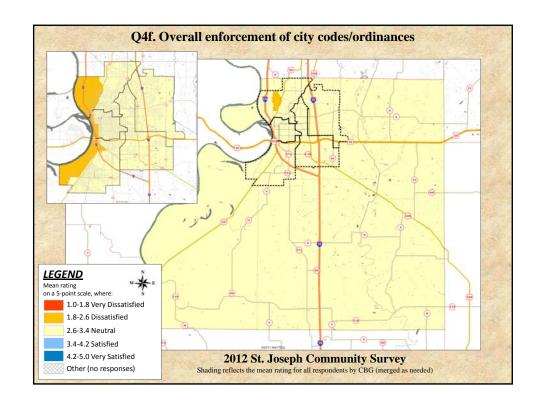

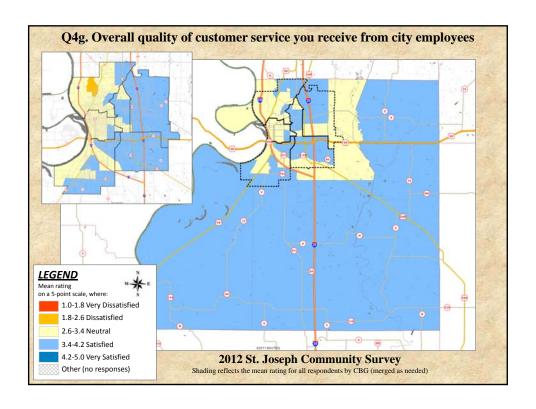

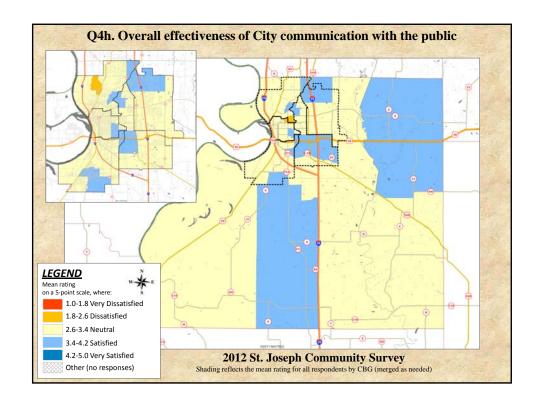

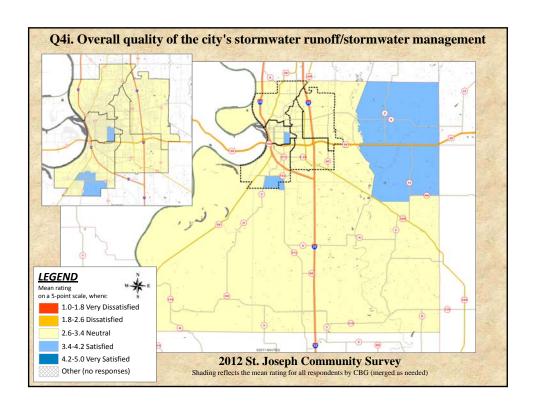

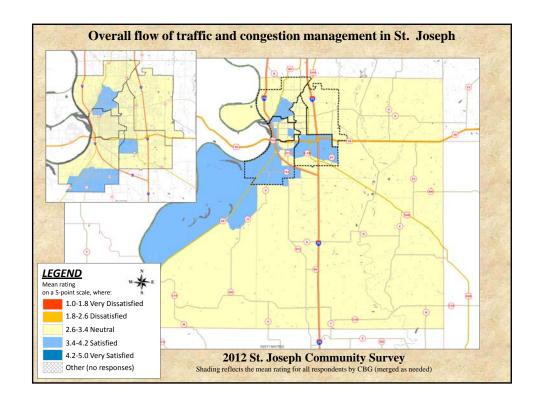

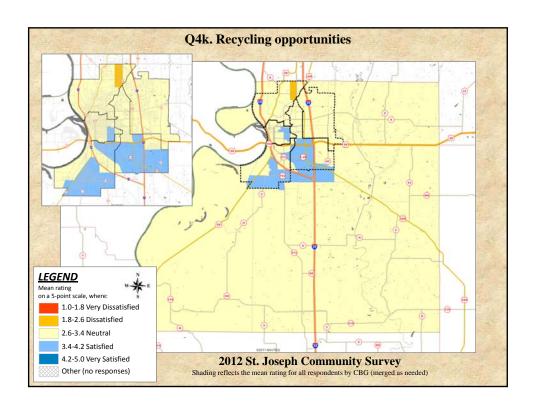

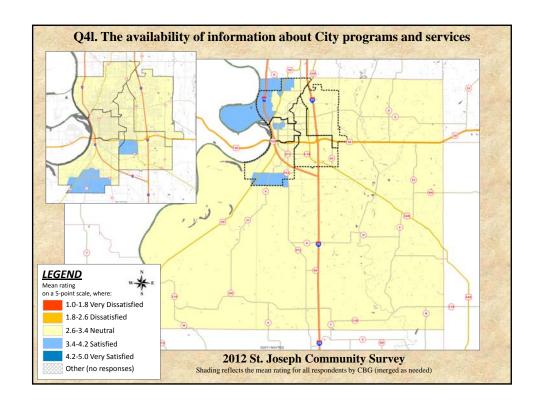

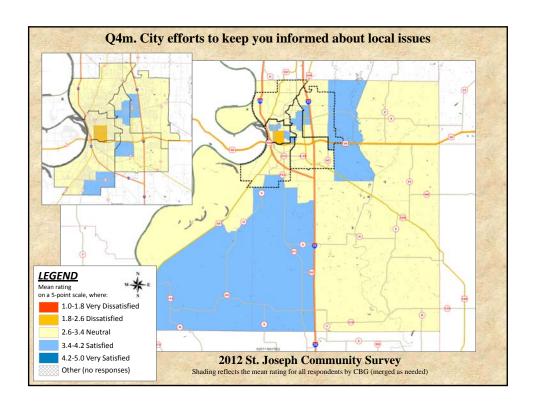

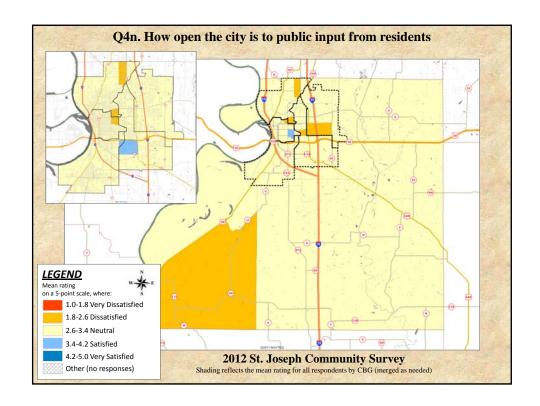

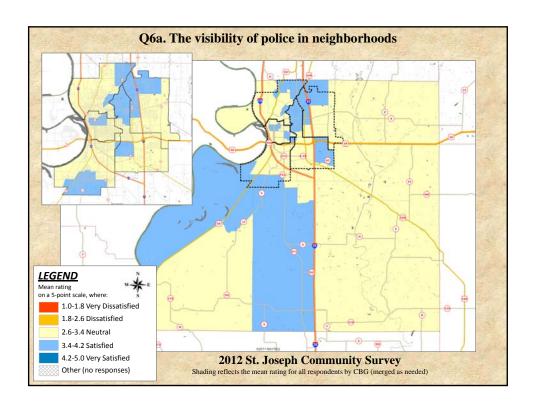

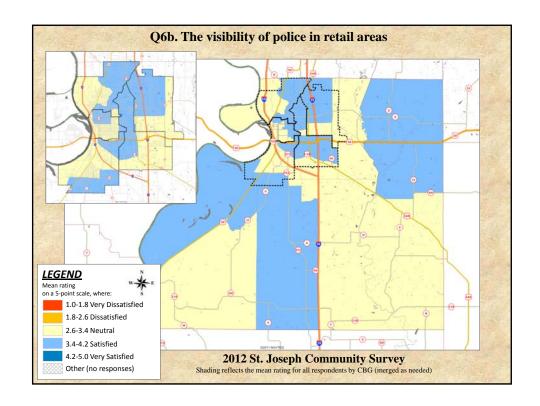

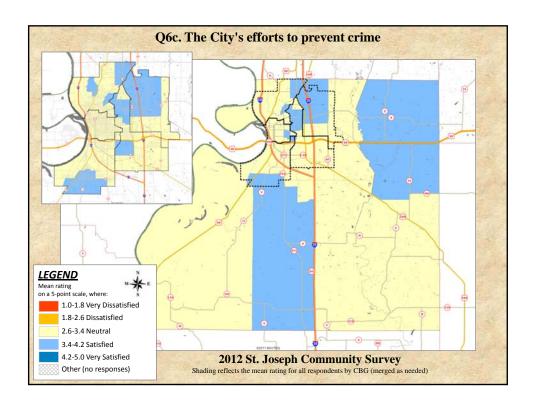

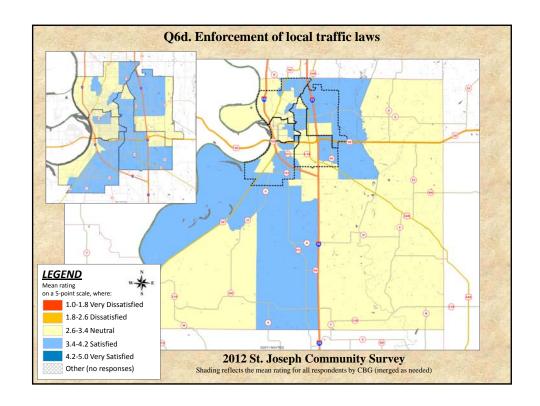

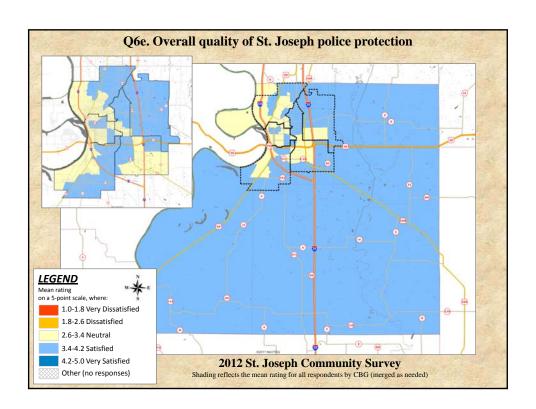

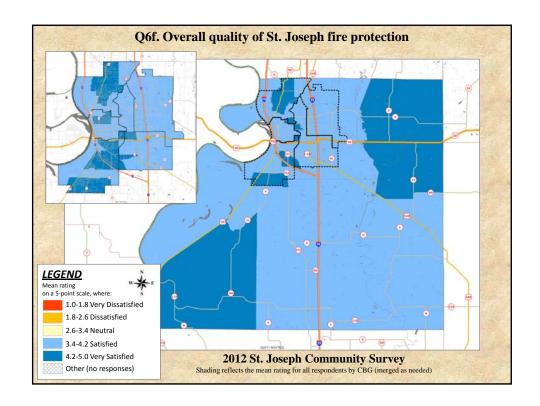

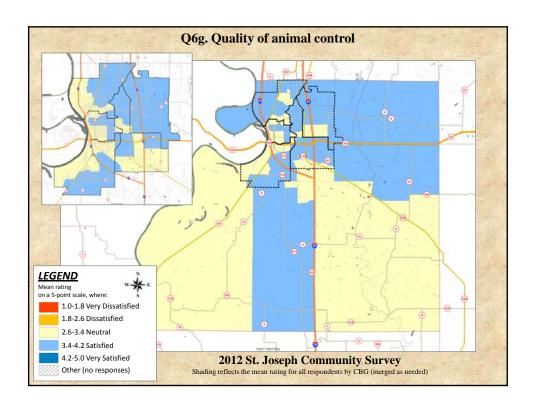

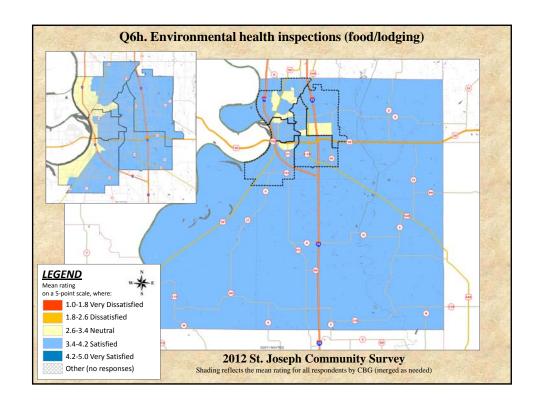

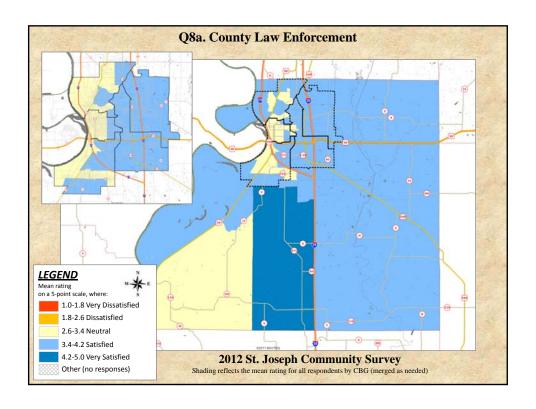

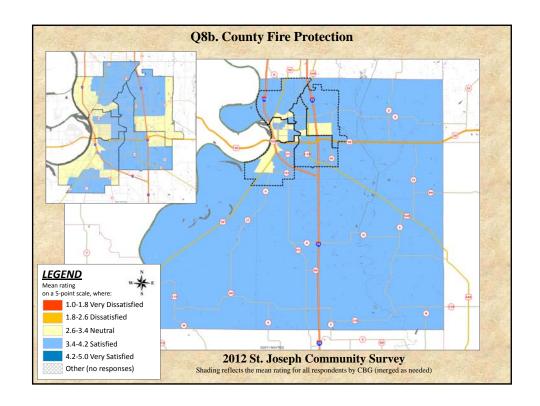

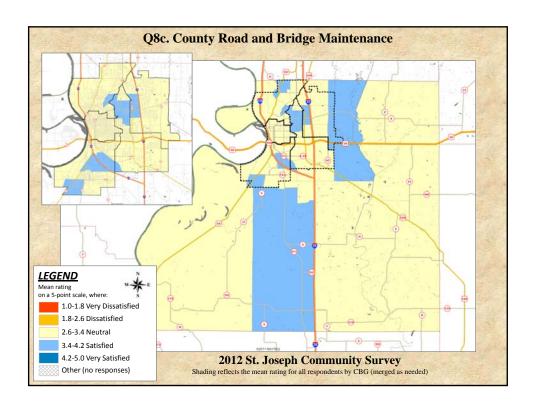

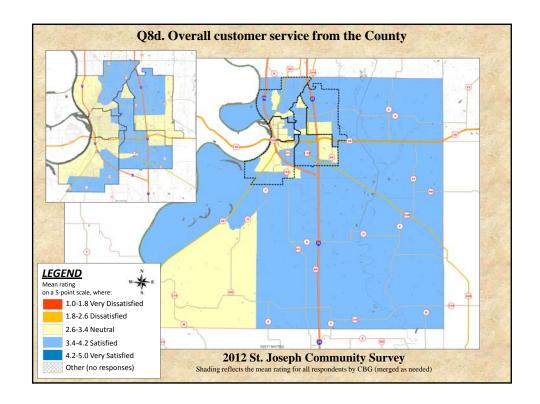

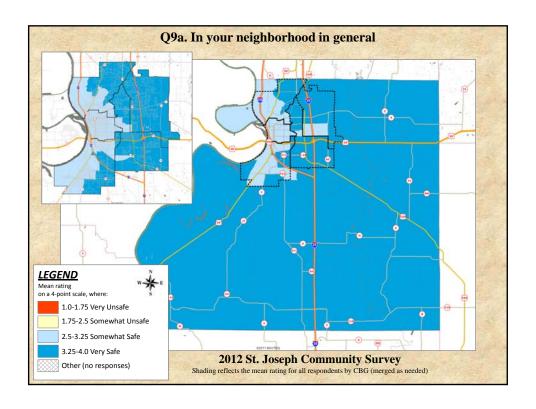

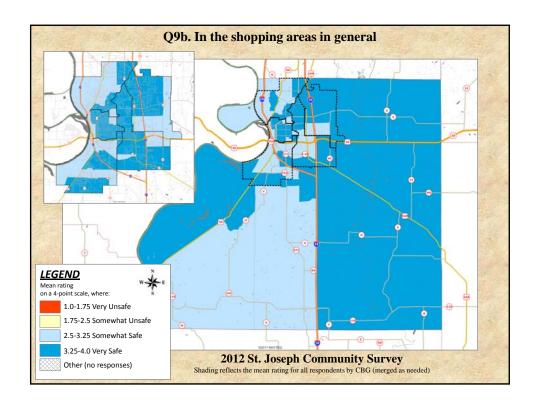

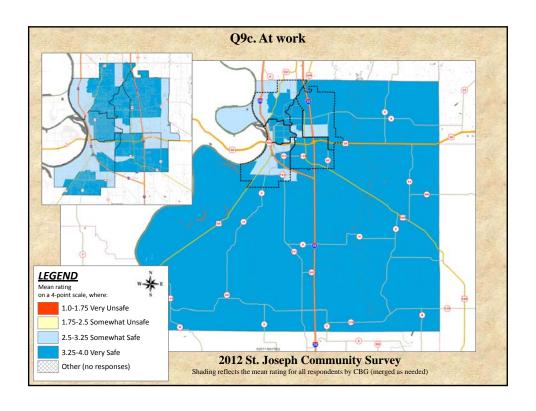

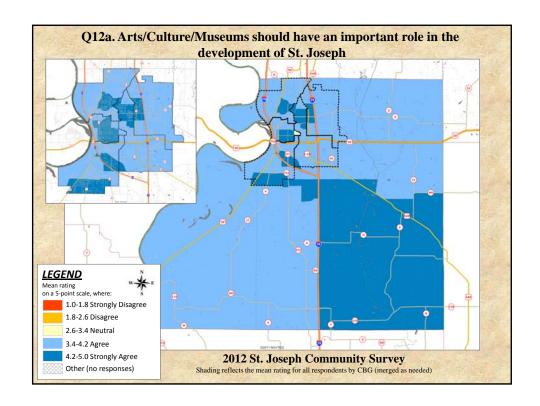

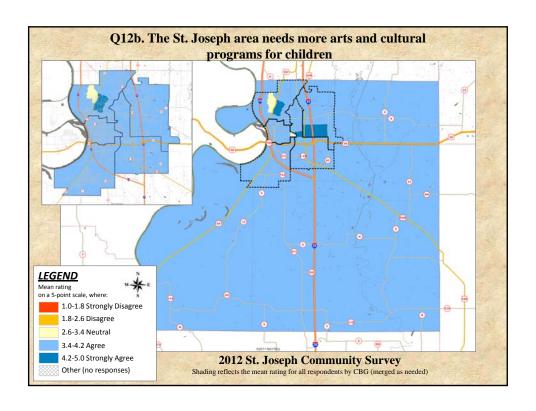

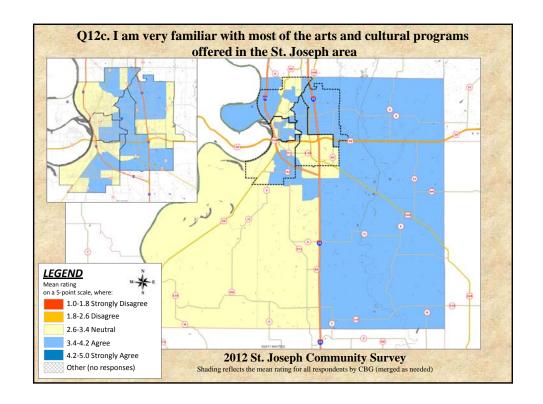

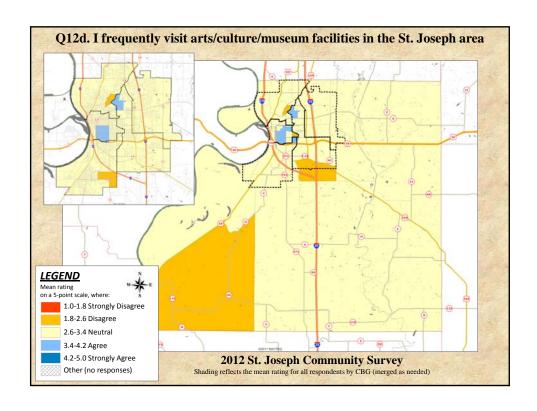

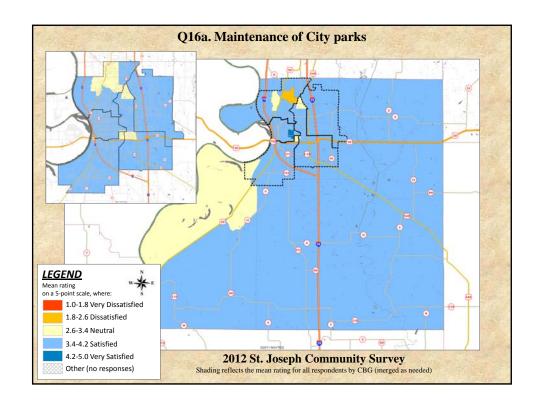

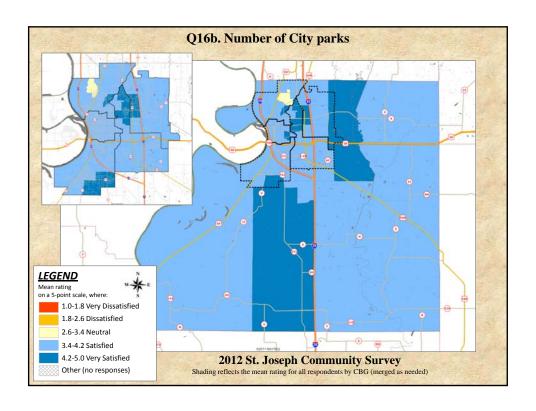

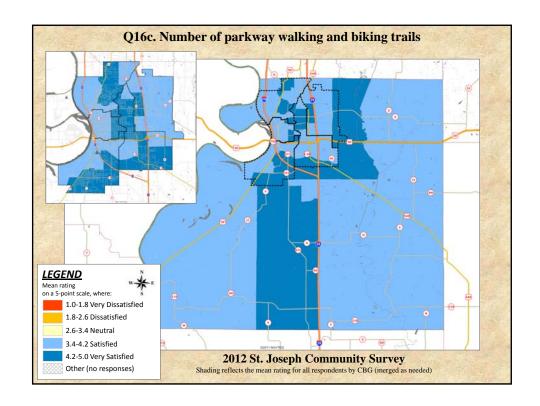

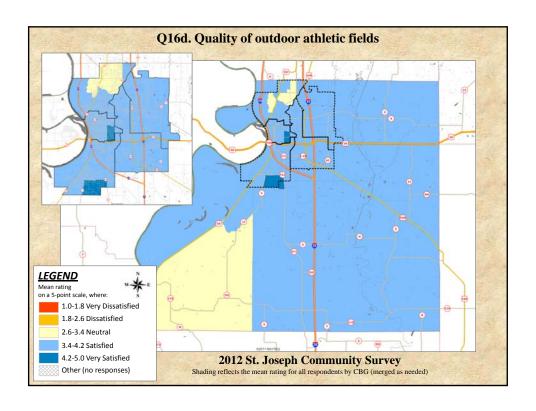

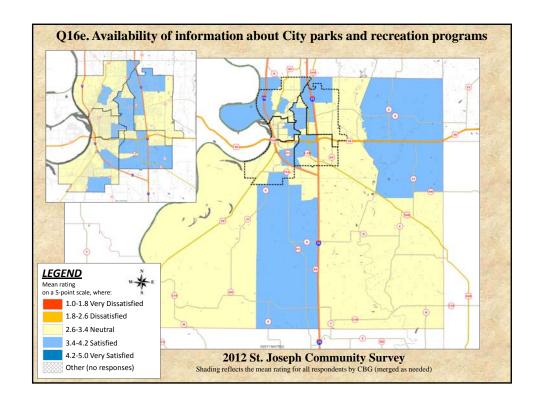

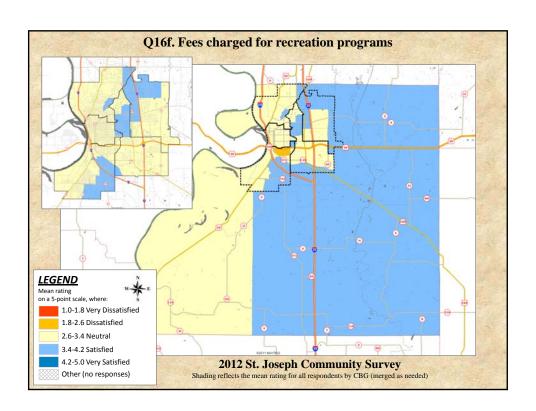

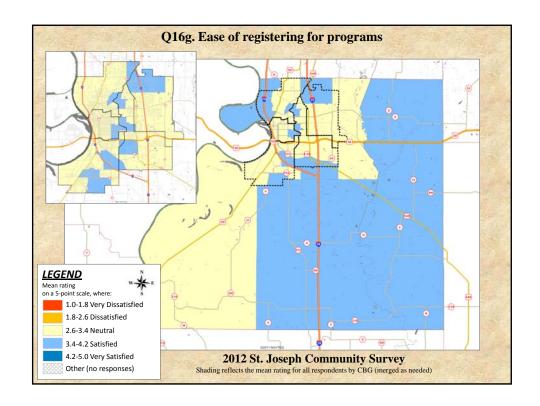

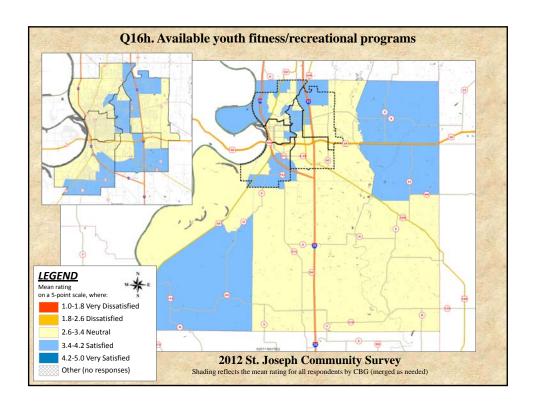

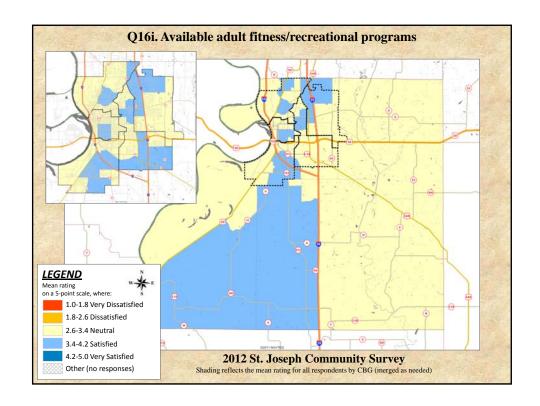

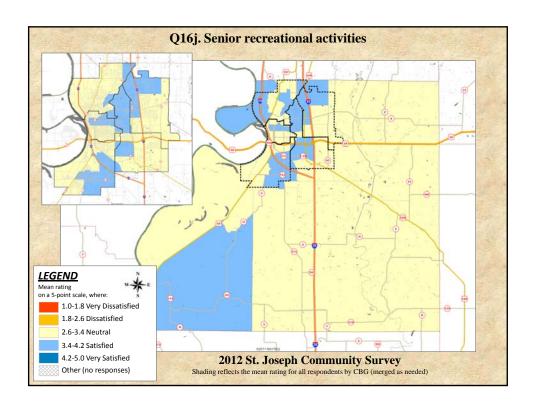

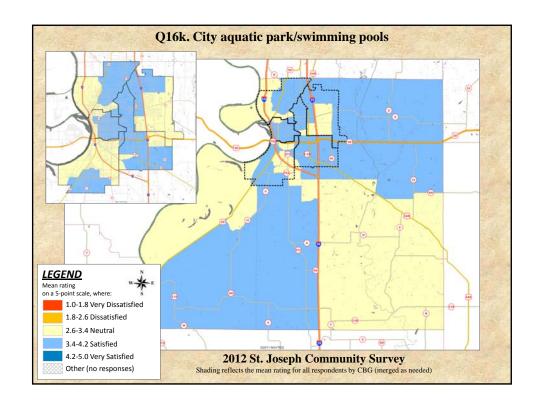

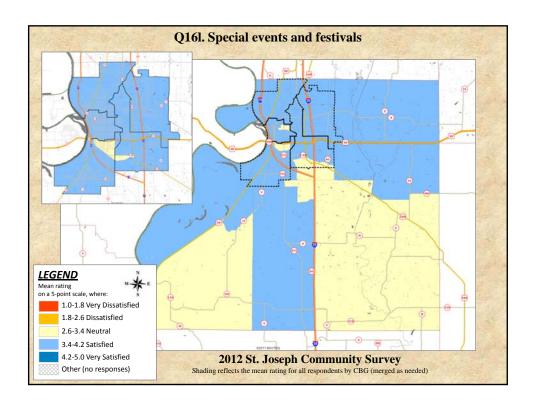

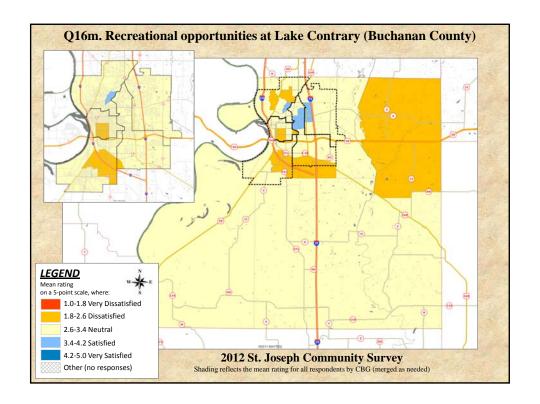

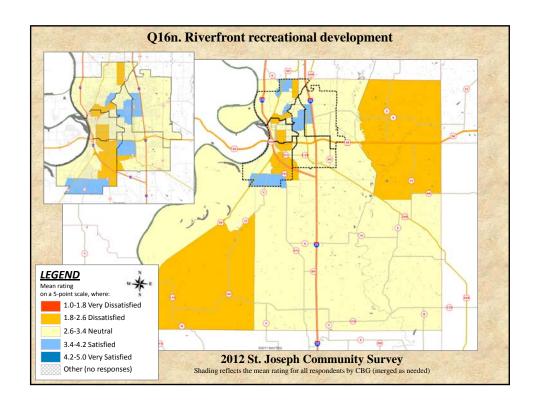

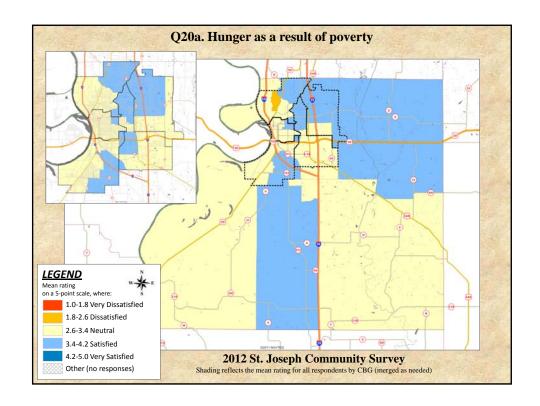

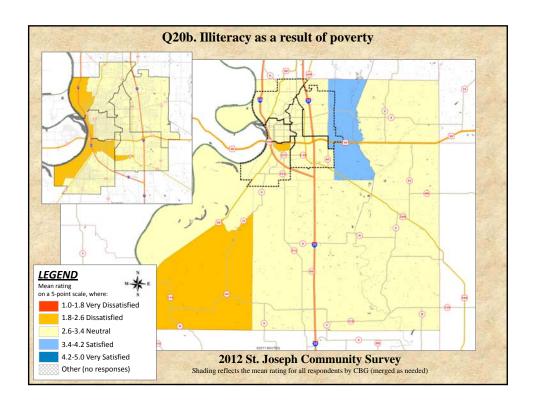

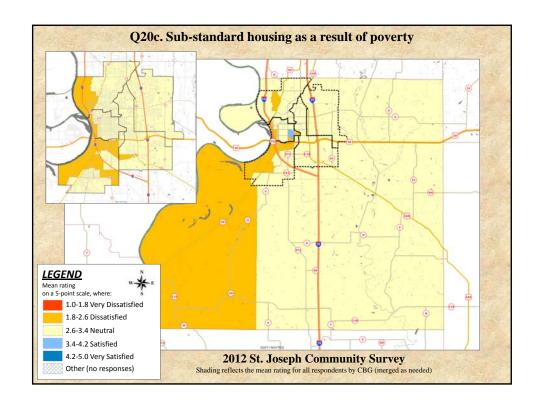

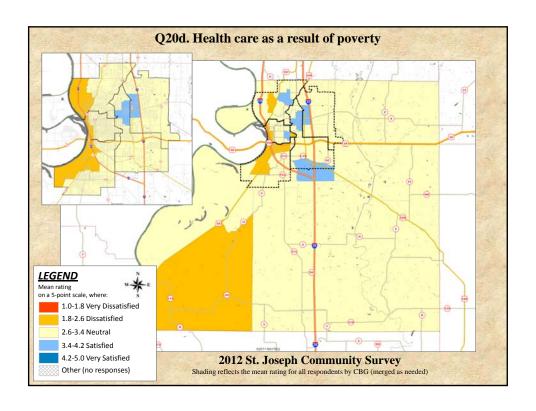

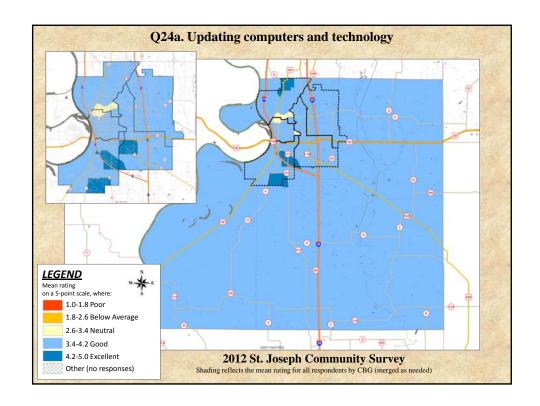

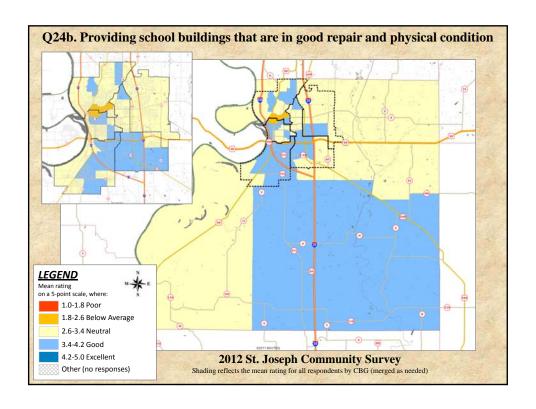

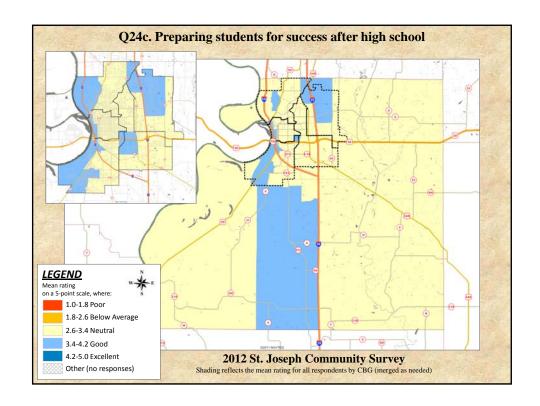

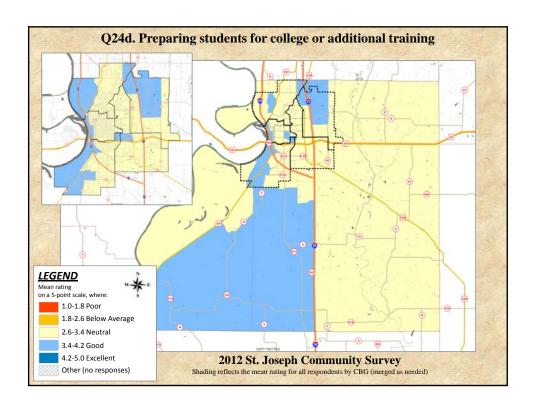

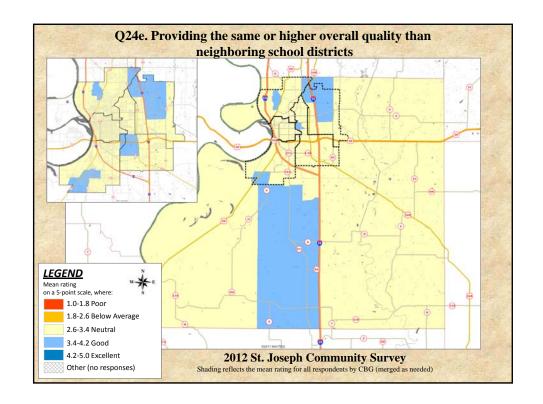

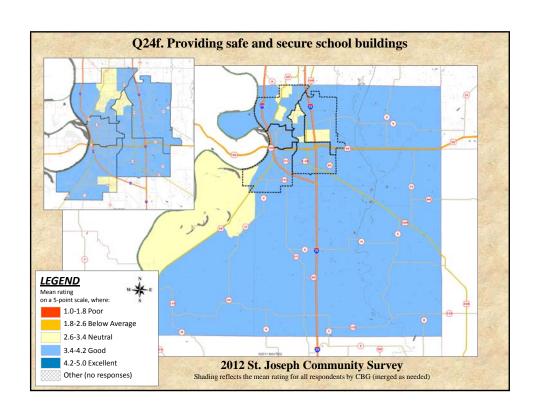

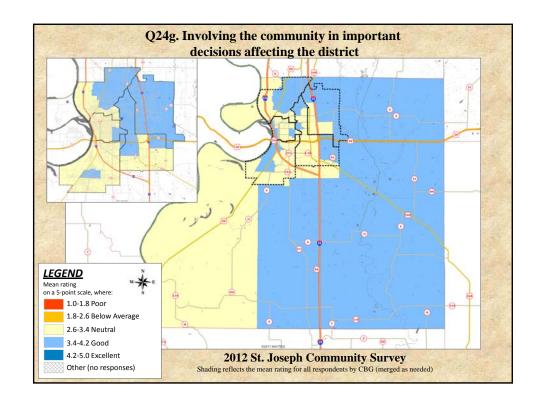

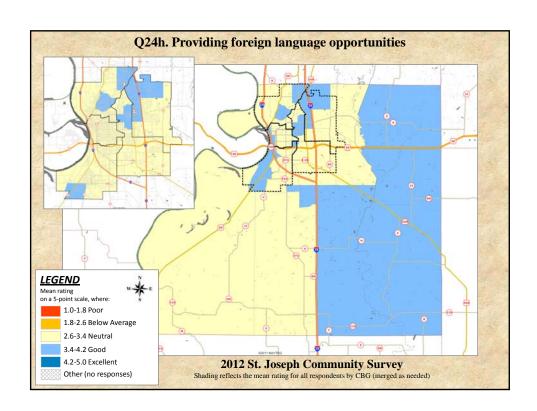

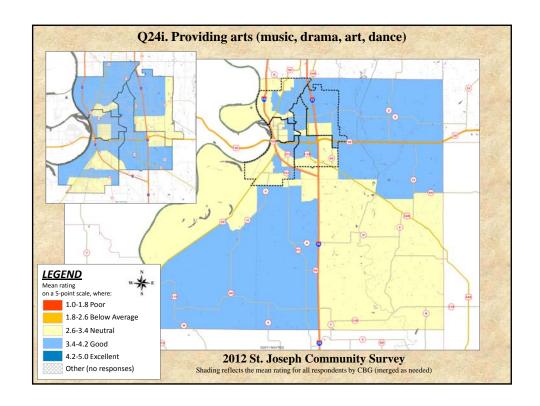

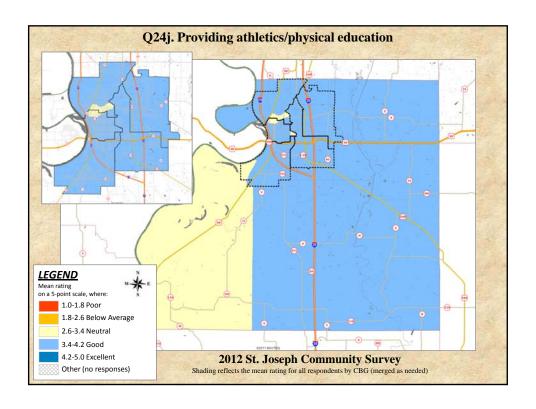

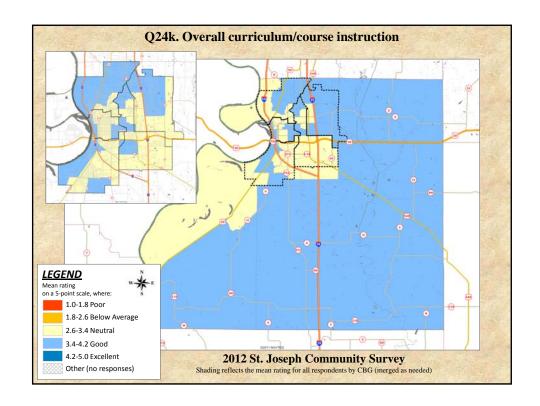

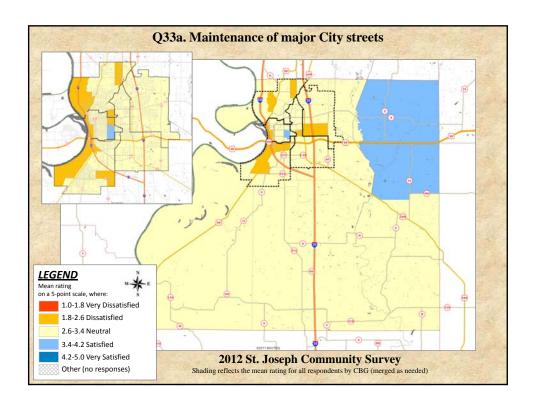

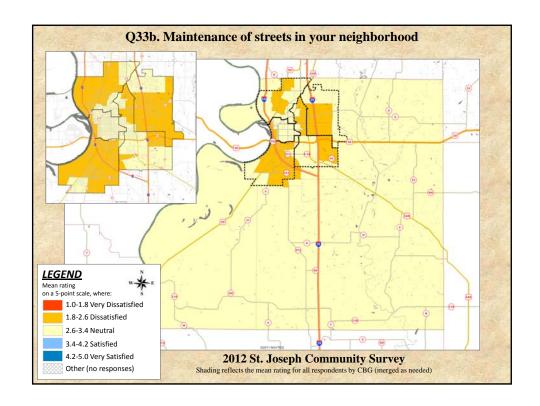

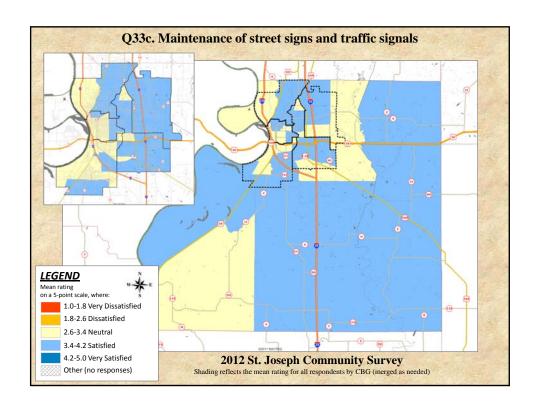

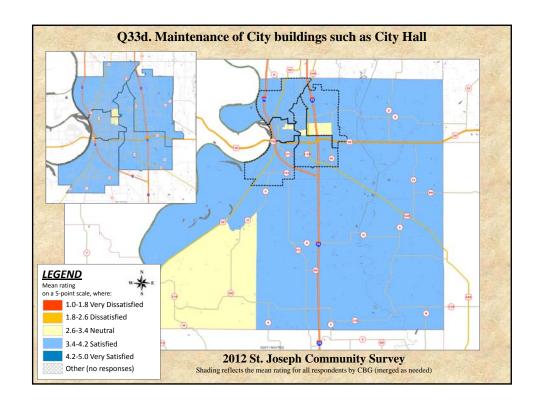

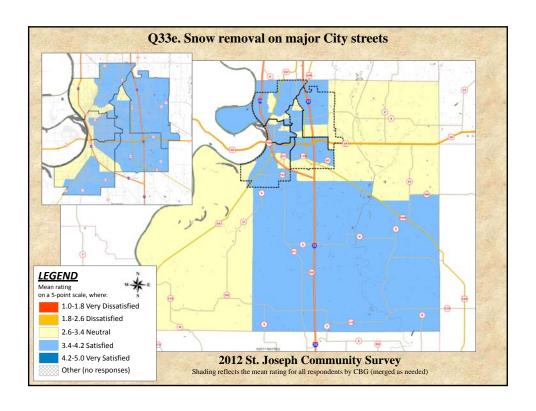

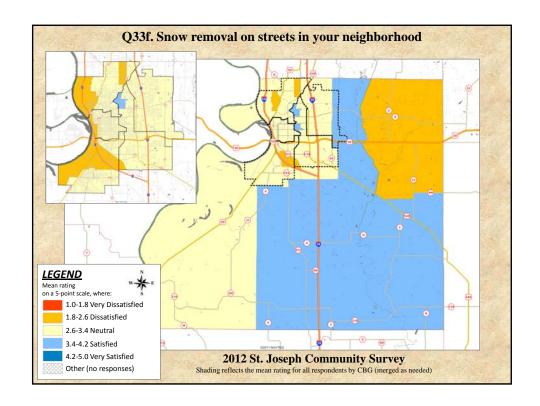

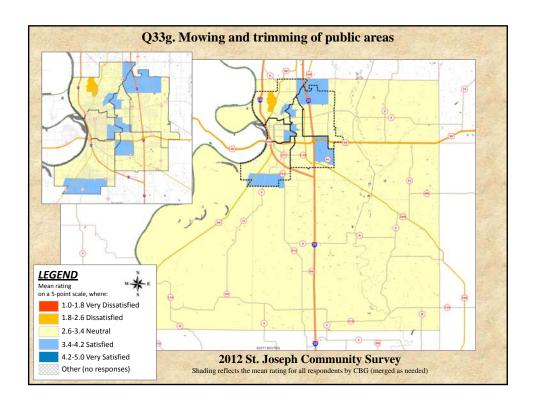

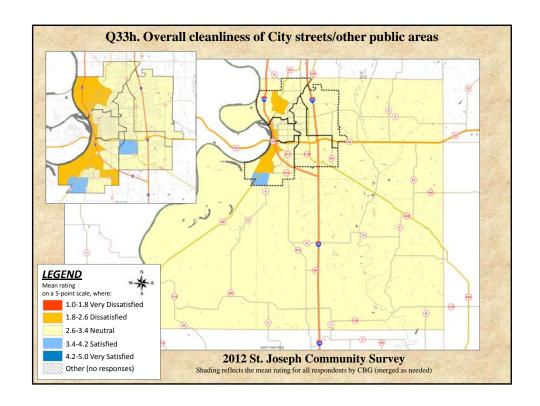

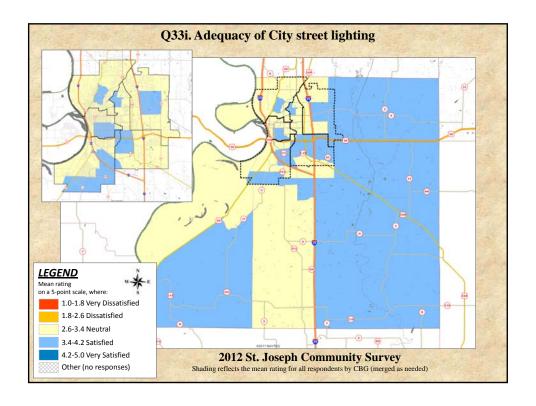

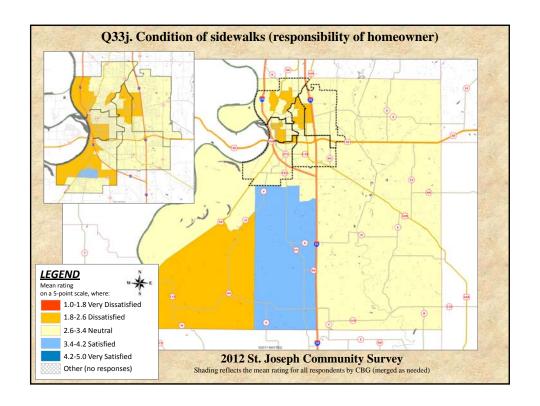

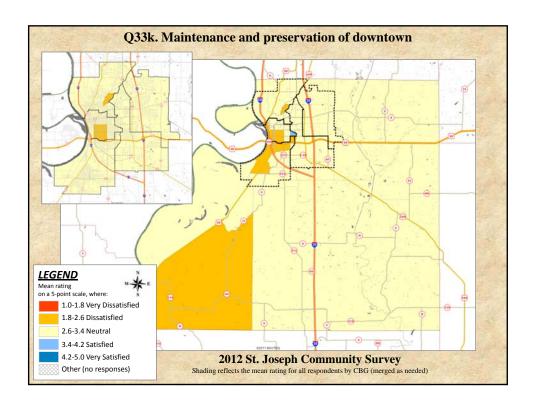

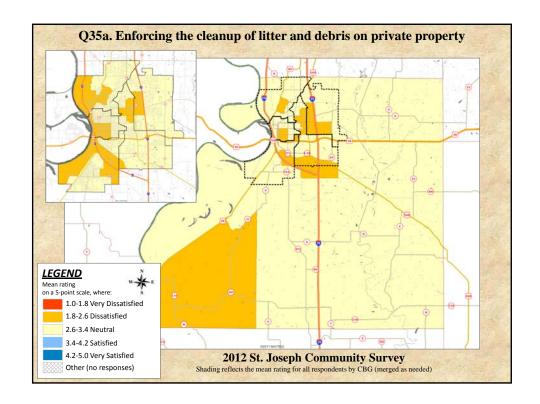

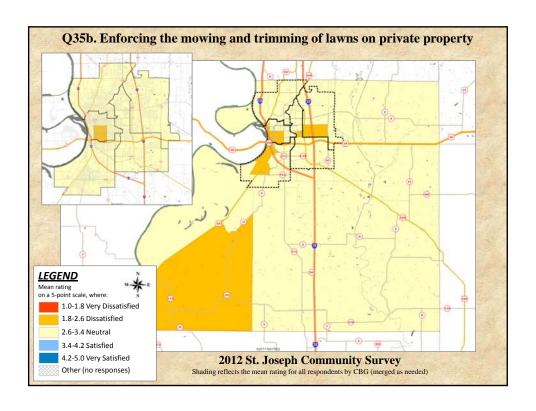

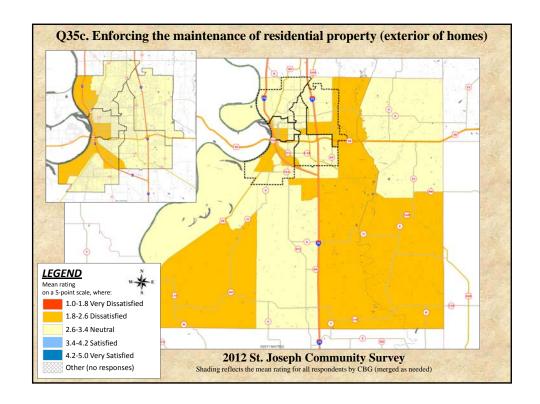

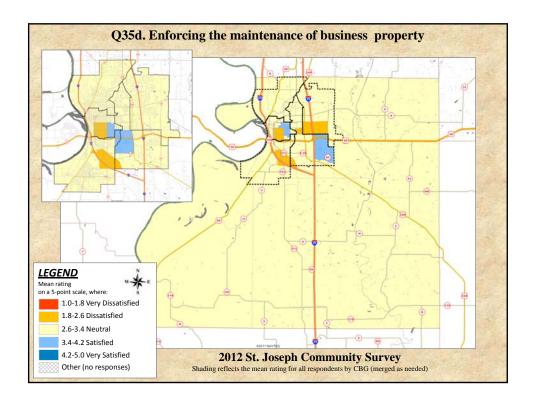

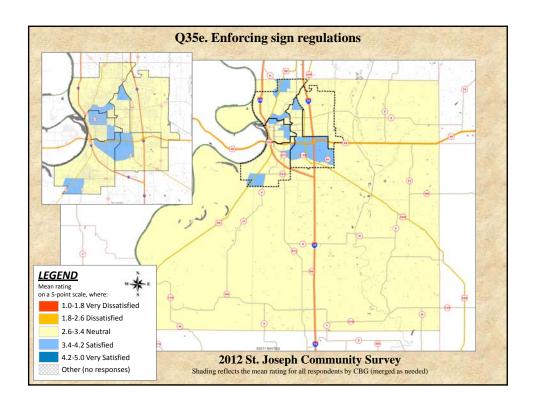

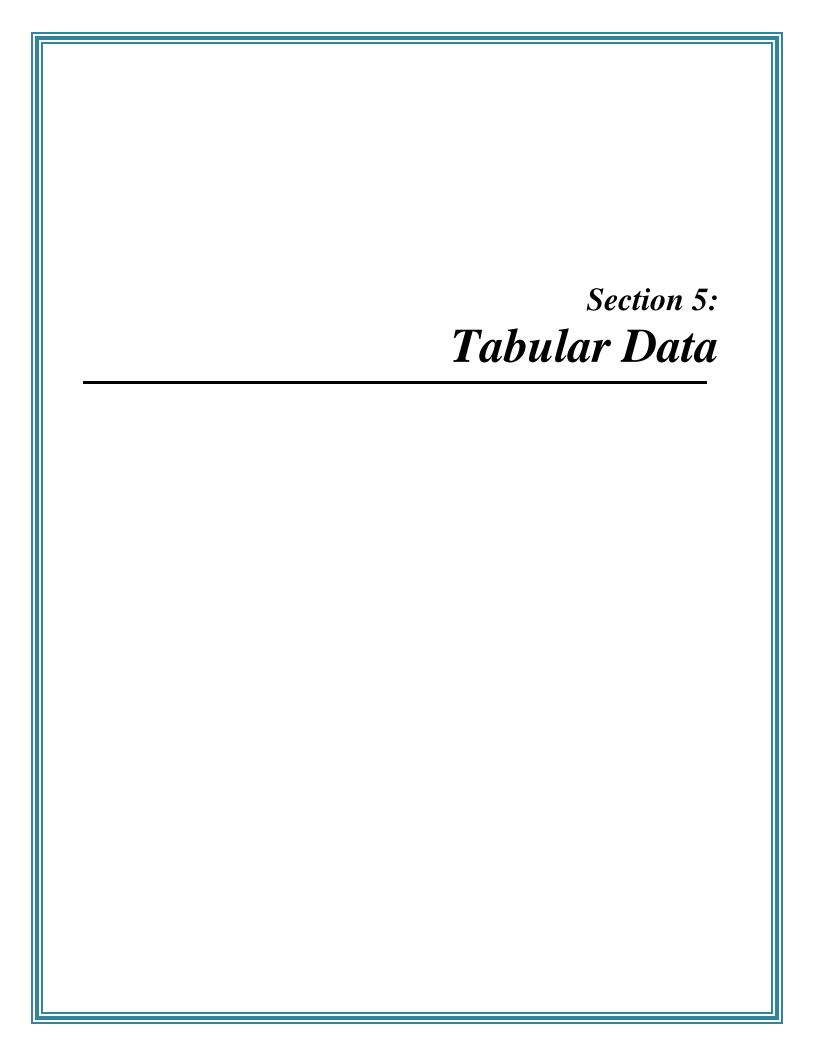

Q1. Several items that may influence your perception of the City of St. Joseph/Buchanan County are listed below. Please rate each item on a scale of 1 to 5 where 5, means "Excellent" and 1 means "Poor."

(N=733)

				Below		Don't
	Excellent	Good	Neutral	Average	Poor	Know
Q1a. Overall image of City	3.3%	46.7%	26.6%	17.1%	4.8%	1.6%
Q1b. Overall value you receive for your City tax dollars & fees	4.2%	34.5%	32.1%	17.6%	6.5%	5.0%
Q1c. Overall value you receive for your County tax dollars & fees	4.4%	33.7%	36.7%	16.1%	5.0%	4.1%
Q1d. Overall quality of City services	4.6%	42.2%	32.9%	13.8%	4.1%	2.5%
Q1e. Overall quality of life in City	8.0%	51.4%	23.7%	10.6%	4.2%	1.9%
Q1f. Overall physical appearance of City	3.8%	32.3%	30.2%	24.8%	7.6%	1.2%
Q1g. Overall feeling of safety in City	10.2%	52.5%	21.0%	10.9%	4.5%	0.8%

May, 2012

Dear St. Joseph and Buchanan County resident:

You are one of just 1,800 residents who have been chosen to help plan and set the direction of our community by completing the enclosed survey. We are asking for your opinion and suggestions to help improve our community/county (such as police, fire, maintenance of public areas, education, and creating job growth) and to establish priorities.

This is your opportunity to let your community leaders know what you think about many important issues. *Your input is extremely important!*

Your individual responses will remain confidential and will be compiled by ETC Institute. ETC Institute is an independent, third-party research firm, and our partner in this effort. ETC will present a report in late June of this year, the results of which will be made public.

Community leaders from the city, school district, and businesses will also see the results. They all want your opinions and insight, and would like to know where you think we are as a community and where you think we need to go.

Please return your completed survey in the enclosed, postage-paid, return envelope <u>in the next</u> <u>week</u>.

Thank you in advance for helping make St. Joseph and Buchanan County a better place to live. Please call Steve Johnston at 816.364.4109 if you have any questions.

Sincerely,

City of St. Joseph

County of Buchanan

Community Alliance of Saint

Joseph

Mayor Bill Falkner

R. W. Turner, Presiding

Commissioner

Steve Johnston, Directo

Please take a few minutes to complete this survey. Your input is an important part of the City's ongoing effort to identify and respond to resident priorities. If you have questions, please call Steve Johnston at 816-364-4109.

I. LIVABILITY

1. Several items that may influence your <u>perception</u> of the City of St. Joseph/Buchanan County are listed below. Please rate each item on a scale of 1 to 5 where 5 means "excellent" and 1 means "poor." (Please circle your answers)

	w would you rate e City of St. Joseph:	Excellent	Good	Neutral	Below Average	Poor	Don't Know
Α.	Overall image of the City	5	4	3	2	1	9
